BLAZE: The best red climber. Large flowers. Vigorous grower ----- each \$1.85

GOLDEN SHOWERS: (Pat. 1557) The first good yellow climber for this area. Almost thornless. ----- each \$2.75

HEDGES

**FOR PRIVACY
AND DIVISION OF PROPERTY**

Many good shrubs can be used for hedges. The variety you choose should depend on the kind of hedge you want — sheared formal, or left to grow tall.

Dwarf Ninebark or Clavey's Dwarf Honeysuckle for the low hedge. Cotoneaster, Zabeli Honeysuckle, improved Red Tart. honeysuckle and Polish Privet for the tall hedge. Even French Lilac would make a fine hedge.

We have all of the above plants in hedge grade. Prices as low as 10c each.

SPECIMEN EVERGREENS

Will be dug, balled and burlapped.

—FOR LANDSCAPE PLANTING—

COLORADO BLUE SPRUCE: Choice "Shiners" from the finest block of trees we have ever grown.

24—30 inch ----- each \$5.50
30—36 inch ----- each \$6.50
36—42 inch ----- each \$7.50

COLORADO GREEN SPRUCE: The same high quality tree in every way except color.

24—30 inch ----- each \$3.50
30—36 inch ----- each \$4.50
36—42 inch ----- each \$5.00

BLACK HILLS SPRUCE: Has proven its value for this area. A very compact growing tree, from little up.

15—18 inch ----- each \$2.25
18—24 inch ----- each \$3.00
24—30 inch ----- each \$3.75
30—36 inch ----- each \$5.00

CONCOLOR FIR: Will make a most beautiful lawn tree. Even, blue color.

15—18 inch trees ----- each \$3.25
A few 5—6 feet at \$10.00 and \$12.50 each

BALSAM FIR: A rapid growing tree. Valuable both as a lawn tree and windbreak.

24—30 inch ----- each \$3.00

DUNDEE JUNIPER: Upright form. Dark green color. Grafted.

2—3 foot, \$5.00 ----- 3—4 foot, \$6.00
4—5 foot, \$7.50

MUGHO PINE: The dwarf growing pine.

12—18 inch, \$2.75 ----- 15—18 inch, \$3.25
18—24 inch, \$4.50 each

SAVIN JUNIPER: Dark green, soft, almost whipcord foliage. Hardy anywhere.

15—18 inch, \$2.50 ----- 18—24 inch, \$3.50
24—30 inch, \$5.00 each

PYRAMIDAL ARBOR VITAE: Dark green strain — very compact.

2—3 ft. ----- each \$4.50

SIBERIAN ARBOR VITAE: Thick heavy foliage, with a slight bluish cast. Easily sheared as a globe or pyramid.

18—24 inch ----- each \$3.75

AMERICAN ARBOR VITAE: Good bushy, well grown trees.

2—3 ft. ----- each \$2.50

PFITZER JUNIPER: Spreading, irregular habit of growth. Widely used in foundation planting.

18—24 inch, \$3.50 ----- 24—30 inch, \$5.00 each

HETZL JUNIPER: Same habit of growth as Pfitzer. Foliage a light blue.

18—24 inch ----- each \$3.75
24—30 inch ----- each \$4.50

JUNIPER TAMARISCIFOLIA: Resembles Savin but with darker green foliage, with both sharp and whip-cord foliage, on the same plant. Very interesting.

24—30 inch ----- each \$4.50

TAXUS OR YEW: Variety intermedia. A comparatively new evergreen in this area. Holds its dark green color all through the winter. Low growing. Will thrive in complete shade.

15—18 inch ----- each \$4.00
18—24 inch ----- each \$5.50

JUNIPER VIRGINIANA: These red cedars have been sheared twice, into compact uprights. 30—36 inch ----- each \$4.00

Windbreak Trees

AND SHRUBS

For protection against snow and wind be sure to make the very outside row to the north and west, Honeysuckle.

BELLA ALBIDA HONEYSUCKLE: This is one of the best varieties that should be used for Wind Break planting. Don't be fooled into planting seedlings of some southern grown stock. None will compare with this old standby. One row with plants set 4 feet apart in the row, is all you need to stop the snow. Heavy field grown from cuttings, well rooted.

2—3 ft., branched ----- 100 for \$20.00
12—18 inch, branched ---- 100 for \$17.50

LAUREL LEAF WILLOW: Heavy 1 year old. Well rooted.

3 to 4 ft. ----- 100 for \$9.00

GOLDEN WILLOW: Heavy 1 year old. Well rooted.

5 to 6 ft. ----- 100 for \$10.00

GREEN ASH: More ash should be planted in the windbreak. Dependable, long-lived. Two year old trees. 3 to 4 ft. -- 100 for \$10.00

SMALL FRUITS

STRAWBERRIES — JUNE BEARING

Dunlap ----- 100 for \$3.00
Beaver ----- 100 for \$3.00

THE 'EARLIMORE' STRAWBERRY: A new June-bearing variety developed by the University of Minnesota. Has high production of fruit, with an early but long season of ripening. Will ripen about 4 days ahead of dunlap.
50 plants for \$3.75

GRAPES: Concord, bears large bunches of sweet, juicy, blue-black grapes every year. Requires winter protection. ---- 3 for \$1.25

GRAPES: Fredonia, ripens 3 weeks earlier than Concord. Requires winter protection.
----- 3 for \$1.25

GRAPES: Moonbeam, a new white grape, Minnesota introduction that really is a dandy. Sweet as sugar, compact bunches, hardy.
2 year No. 1 plants, 65c each.

RHUBARB: Valentine red, very tender stalks of extra large size. Tremendous yielder.
No. 1 divisions ----- each 65c

RHUBARB: McDonald, a good red, juicy variety, not quite as red as Valentine.
No. 1 divisions ----- each 50c

ASPARAGUS: Mary Washington, a very good variety for our soil. Easy to grow.
25 plants for \$1.50 100 for \$5.00

RASPBERRY: New Durham Red. This wonderful new berry provides fresh fruit 'till frost. Large beautiful red berries.
10 plants for \$2.00 100 for \$15.00

RASPBERRY SEPTEMBER: Another new everbearing. Fruit is like Latham. Will start bearing in fall at least 2 weeks earlier than any of the others.
10 plants for \$2.50 100 plants for \$20.00

VINES

AMERICAN BITTERSWEET: Plant 2 or more in a group. 2 yr. plants. each 75c

HONEYSUCKLE HECKROTTI: Everblooming, May until frost. Flame-red trumpets lined with gold. Heavy, 2 yr. plants, each \$1.00

CLEMATIS: Jackmani, purple; Mme. Edw. Andre, red; Henryi, white. -----each \$1.50

PLANT AN ORCHARD

(The New Minnesota Apples Are Listed On Front Page)

APPLE TREES

3 to 4 ft. ----- each \$1.50
4 to 5 ft. ----- each \$2.00

CENTENNIAL CRAB: Can be used both as a fruiting crab and an ornamental. Fruit almost the size of Whitney.

CONNELL RED: A bud sport of Fireside apple. Patented, No. 1602. The very latest of the NEW apple trees. Fruit smooth, round solid dark red, with all of the high qualities of Fireside. Good 6 ft. trees each \$3.25

WHITNEY CRAB: This well known early crab is still in big demand. Include one or more in your planting.

RED DELICIOUS: Large red summer apple. This tree has produced good crops here for years.

MALINDA: An old time favorite. Good keeper.
GOLDEN DELICIOUS: Grown from a tree right here at home. Like the Red Delicious, it has produced well for several years.

YELLOW TRANSPARENT: The well known early summer apple. Always in demand.

NORTHWESTERN GREENING: A popular old winter apple, with large smooth green fruit.

WEALTHY: One of Minnesota's most popular late fall apples.

MINNESOTA No. 1430: A cross of Golden Delicious and Red Duchess. Ripens early. Recommended for Southern Minnesota.

DUCHESS: Everyone knows this variety. Ripens early. One of the oldest.

CHESTNUT CRAB: A new Minnesota introduction.

PRUNE TREES

MT. ROYAL: Genuine prune. Nothing finer than tree ripened prunes. Hardy. \$2.50 each

PLUM TREES

1 year old from buds ----- \$1.75 each
MINNESOTA No. 387: A yellow plum of very good flavor.

KAGA: A good red plum. One of the best as a pollinizer.

SUPERIOR: Originated by the Minnesota Fruit Breeding Farm. Very large, delicious red plum. Rich sweet flavor.

PIPESTONE: Extra early, jumbo size. Another fine Minnesota introduction.

MINNESOTA No. 416: A large red plum of high quality for canning.

PEAR TREES

PARKER: One of the sweetest, juiciest pears that grows. Ripens in early September.

GOLDEN SPICE: A flavorful new canning pear that's hardy throughout Minnesota. Plant one of each for best results.

2 trees (one of each) ----- \$4.00

NEW DWARF CHERRY TREES

NORTH STAR: A dwarf pie cherry from U. of Minn. Big mahogany-red cherries on dwarf 5 to 7 ft. trees.

1 year old trees, 3 ft. ----- each \$2.00
KROEKER'S CHERRY: Another dwarf cherry that has proven its ability to produce top quality fruit over a period of years. Big red cherries on 5 to 7 ft. trees. Excellent for pies.

1 yr. old trees, 3 ft. and up -- each \$2.00
SAPALATA: Cherry-Plum Hybrid. Fruit of Sapa type, but sweeter and less clingstone.
3-4 ft. trees ----- \$1.85 each

SHADE AND ORNAMENTAL TREES

FOR BEAUTY AND COMFORT

NEW SUNBURST LOCUST: (Pat. 1313)
A perfect shade tree, fast growing and long-lasting. No seed pods, no thorns. It's a beauty. Golden tipped foliage.
6-7 ft. trees, not branched. ea. \$5.25

CRIMSON KING MAPLE: (Pat. 735) Comes out red in the spring and holds its color all summer to yellow in fall.

6—7 foot field grown, 2 year \$5.00 each

NORWAY MAPLE: Rapid grower, with large green leaves all summer. A very desirable tree.

7-8 foot, field grown, 2 year \$4.50 each

8-10 foot, field grown, 3 year \$10.00 each

HARD OR SUGAR MAPLE: One of our finest shade trees. A native Minnesota tree, green leaves that turn to yellow and scarlet in fall.

6-8 foot trees branched \$4.50 each

WHITE CLUMP BIRCH: For that "natural look", plant three trees in the same hole.

2-3 ft. trees potted ----- 3 for \$2.00

LAKE CITY ELM: A grafted form of American elm, selected for their uniformity, good shape and fast growth.

8-10 ft., Well branched ----- \$4.50 each

AMERICAN ELM: Hardy fast growing, dependable.

10-15 ft. trees ----- \$5.00 each

8-10 ft. trees ----- \$3.50 each

6-8 ft. trees ----- \$2.50 each

GREEN ASH: Dependable, long lived, good shade trees. Hardy everywhere.

6-8 ft. trees, transplanted \$2.25 each

8-10 ft. trees, transplanted \$3.00 each

HACKBERRY: Resembles the Elm, somewhat faster growing. A very desirable shade tree. 5-6 ft. trees, well branched \$2.25 each

TOBA HAWTHORNE: (Thornapple) A new budded variety. A beautiful small tree.
3-4 ft. ----- \$2.00 each

HOPA CRAB: A beautiful, upright growing tree. Bright pink flowers. Fruits red inside and out.

Heavy branched 5-6 ft. ---- \$2.25 each

MT. ASH, AMERICAN: Well branched trees.
5-6 ft. ----- \$3.75 each

WILLOW, Niobe Weeping: Needs lots of room to develop. Golden yellow bark, narrow green leaves. 5-6 ft. branched \$2.35 each
3 or more — \$2.00 each

WILLOW, Pussy: A new French Hybrid. Popular on account of the extra large catkins, in April before the leaves come out.

Well branched, potted ----- each \$1.00

SUMMIT ASH: A seedless, upright, well balanced, vigorous growing tree. Very desirable for a permanent shade tree.

Choice straight, 7-8 ft. ----- \$4.00 each

Lombardy Poplar

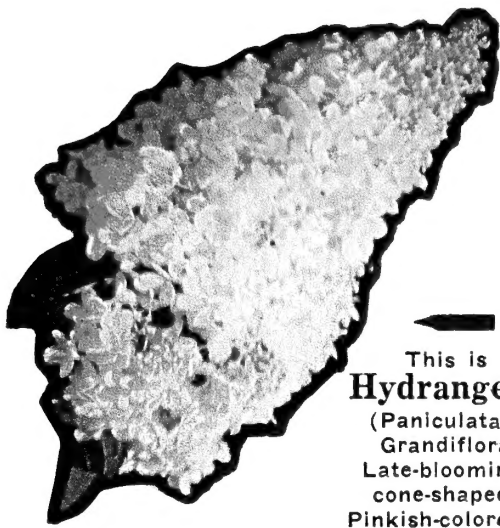

Widely used for tall screens and accent plants. Glossy leaves that shimmer in the breeze.

4-5 ft. — 1 year old ----- each 50c

3-4 ft. — 1 year old ----- 10 for \$3.50

Bolleana Poplar

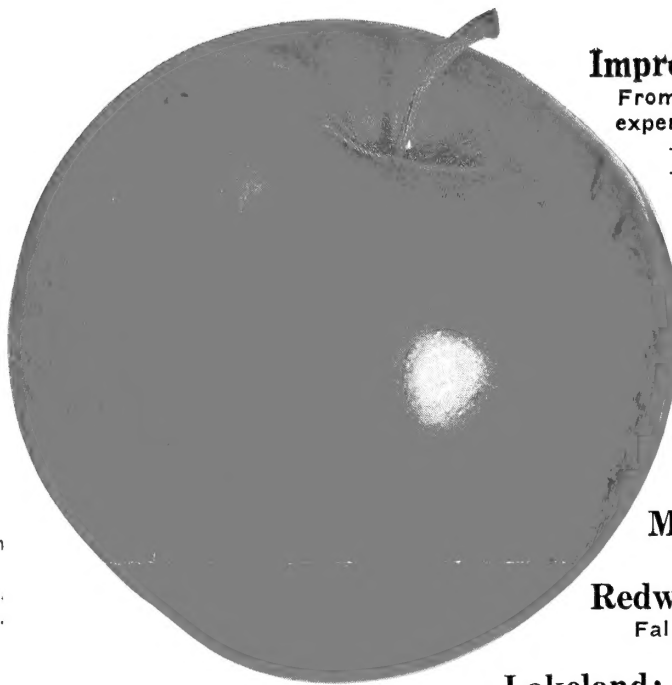

Well branched, 2 year — 6-7 ft. ea. \$1.60

This is
